

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	Hard

Question

The prime meridian, the global indicator of zero degrees longitude established in 1884, was originally determined using astronomically derived coordinates. _____ as decades passed, new calculations would reveal increasingly precise coordinates, yet the prime meridian remained unchanged; it wasn't until the 1980s that, spurred by improved geodetic data, the prime meridian was officially moved—roughly one hundred meters east.

Which choice completes the text with the most logical transition?

Answer

- A. Specifically,
- B. To that end,
- C. Again and again,
- D. Granted,

Correct Answer: C

Rationale

Choice C is the best answer. "Again and again" logically signals that the information in this sentence—that new calculations revealed increasingly precise coordinates for the location of the prime meridian—refers to events that occurred multiple times in the decades after the establishment of the prime meridian in 1884 (which is described in the preceding sentence).

Choice A is incorrect because "specifically" illogically signals that the information in this sentence provides specific, precise details elaborating on the description of the prime meridian's establishment in the previous sentence. Instead, the sentence indicates that increasingly precise coordinates were revealed on multiple occasions in the decades following the meridian's establishment. Choice B is incorrect because "to that end" illogically signals that the information in this sentence is a means of accomplishing a goal established in the previous sentence about the prime meridian's establishment. Instead, the sentence indicates that increasingly precise coordinates were revealed on multiple occasions in the decades following the meridian's establishment. Choice D is incorrect because "granted" illogically signals that the information in this sentence is in opposition to the information about the prime meridian's establishment in the previous sentence. Instead, the sentence indicates that increasingly precise coordinates were revealed on multiple occasions in the decades following the meridian's establishment.

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	Easy

Question

In 1942, the 1,500-mile Alaska Highway was constructed in under nine months, largely due to the skilled work of nearly 4,000 African American soldiers from US Army engineering regiments. The soldiers’ contribution was overlooked for decades. _____ in 2017, lawmakers declared October 25 a day of recognition—“Alaska Highway Day”—for the troops who helped build this critical roadway.

Which choice completes the text with the most logical transition?

Answer

- A. Lastly,
- B. Then,
- C. Similarly,
- D. For example,

Correct Answer: B

Rationale

Choice B is the best answer. "Then" logically signals that the event described in this sentence—lawmakers’ 2017 declaration of Alaska Highway Day—is part of a chronological sequence of events, occurring after the decades-long period in which the soldiers’ contribution was overlooked.

Choice A is incorrect because "lastly" illogically signals that this sentence presents the last of a series of points or reasons. Instead, it describes a later event occurring in a chronological sequence of events. Choice C is incorrect because "similarly" illogically signals that the information in this sentence is similar to the previous information about the soldiers’ contribution being overlooked for decades. Instead, it describes an event occurring after that decades-long period. Choice D is incorrect because "for example" illogically signals that this sentence provides an example illustrating the previous information about the soldiers’ contribution being overlooked for decades. Instead, it describes an event occurring after that decades-long period.

SAT	Reading and Writing	Expression of Ideas	Transitions	Easy

Question

Samuel Coleridge-Taylor was a prominent classical music composer from England who toured the US three times in the early 1900s. The child of a West African father and an English mother, Coleridge-Taylor emphasized his mixed-race ancestry. For example, he referred to himself as Anglo-African. _____ he incorporated the sounds of traditional African music into his classical music compositions.

Which choice completes the text with the most logical transition?

Answer

- A. In addition,
- B. Actually,
- C. However,
- D. Regardless,

Correct Answer: A

Rationale

Choice A is the best answer. “In addition” logically signals that the detail in this sentence—that Coleridge-Taylor included traditional African music in his classical compositions—adds to the information in the previous sentence. Specifically, the previous sentence indicates one way in which Coleridge-Taylor emphasized his mixed-race ancestry, and the claim that follows indicates a second, additional way.

Choice B is incorrect because “actually” illogically signals that the detail in this sentence is surprising in light of the information in the previous sentence. Instead, the detail adds to the information, indicating a second, additional way in which Coleridge-Taylor emphasized his mixed-race ancestry. Choice C is incorrect because “however” illogically signals that the detail in this sentence contrasts with the information in the previous sentence. Instead, the detail adds to the information, indicating a second, additional way in which Coleridge-Taylor emphasized his mixed-race ancestry. Choice D is incorrect because “regardless” illogically signals that the detail in this sentence is true despite the information in the previous sentence. Instead, the detail adds to the information, indicating a second, additional way in which Coleridge-Taylor emphasized his mixed-race ancestry.

Question ID: 4d2736f0

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	Hard

Question

In her poetry collection *Thomas and Beulah*, Rita Dove interweaves the titular characters’ personal stories with broader historical narratives. She places Thomas’s journey from the American South to the Midwest in the early 1900s within the larger context of the Great Migration. _____ Dove sets events from Beulah’s personal life against the backdrop of the US Civil Rights Movement.

Which choice completes the text with the most logical transition?

Answer

- A. Specifically,
- B. Thus,
- C. Regardless,
- D. Similarly,

Correct Answer: D

Rationale

Choice D is the best answer. “Similarly” logically signals that the information in the sentence—that Dove situates Beulah’s life in the context of the US Civil Rights Movement—is similar to the previous information about Thomas and the Great Migration. Both sentences support the first sentence’s claim that Dove portrays her characters in the context of broader historical narratives.

Choice A is incorrect because “specifically” illogically signals that the information about Beulah in this sentence provides specific details elaborating on the previous information about Thomas. Instead, it’s similar to the previous information about Thomas. Choice B is incorrect because “thus” illogically signals that the information about Beulah in this sentence is a result or consequence of the previous information about Thomas. Instead, it’s similar to the previous information about Thomas. Choice C is incorrect because “regardless” illogically signals that the information about Beulah in this sentence is true despite the previous information about Thomas. Instead, it’s similar to the previous information about Thomas.

Question ID: d3b7d7a3

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	Hard

Question

Many historical accounts of the 1930s focus on the widespread movement of people from dust bowl–ravaged Great Plains states to faraway California. However, a 2016 study of 1940 census data complicates this popular narrative; _____ researchers determined, migrants in states hardest hit by prolonged droughts and dust storms—Colorado, Kansas, Oklahoma, and Texas—merely relocated within the region.

Which choice completes the text with the most logical transition?

Answer

- A. for this reason,
- B. more often,
- C. additionally,
- D. nevertheless,

Correct Answer: B

Rationale

Choice B is the best answer. “More often” logically signals that the historical outcome in this clause—dust bowl migrants’ relocation within the Great Plains region—was more common than the movement to California described in many historical accounts.

Choice A is incorrect because “for this reason” illogically signals that the historical outcome in this clause was caused by either the narrative about widespread movement to California or the 2016 study’s complication of that narrative. Instead, dust bowl migrants’ regional relocation was found to be more common than the movement to California described in many historical accounts. Choice C is incorrect because “additionally” illogically signals that the historical outcome in this clause merely adds to either the narrative about widespread movement to California or the 2016 study’s complication of that narrative. Instead, dust bowl migrants’ regional relocation was found to be more common than the movement to California described in many historical accounts. Choice D is incorrect because “nevertheless” illogically signals that the historical outcome in this clause is true despite either the narrative about widespread movement to California or the 2016 study’s complication of that narrative. While the findings about dust bowl migrants’ regional relocation did challenge the previous narrative, they did not challenge the study’s findings, and this choice creates a confusing ambiguity. Instead, dust bowl migrants’ regional relocation was found to be more common than the movement to California described in many historical accounts.

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	Medium

Question

While studying jorō spiders, a large species originally from East Asia, University of Georgia researchers wondered if the spiders’ rapid spread throughout the southeastern US was a result of aggressive behavior. _____ they discovered that jorō spiders are gentle giants who react to even minor disturbances by “freezing” in place for an hour or more.

Which choice completes the text with the most logical transition?

Answer

- A. Therefore,
- B. Instead,
- C. For example,
- D. In other words,

Correct Answer: B

Rationale

Choice B is the best answer. “Instead” logically signals that the information about the researchers’ discovery in this sentence—that jorō spiders are gentle giants who “freeze” in place when disturbed—contradicts their initial hypothesis about the spiders’ aggressiveness described in the previous sentence.

Choice A is incorrect because “therefore” illogically signals that the discovery about jorō spiders’ gentleness is a result of the initial hypothesis about their aggressive behavior. Instead, the sentence presents information that contradicts the initial hypothesis. Choice C is incorrect because “for example” illogically signals that the discovery about jorō spiders’ gentleness exemplifies the initial hypothesis about their aggressive behavior. Instead, the sentence presents information that contradicts the initial hypothesis. Choice D is incorrect because “in other words” illogically signals that the discovery about jorō spiders’ gentleness is merely restating or rephrasing the initial hypothesis about their aggressive behavior. Instead, the sentence presents information that contradicts the initial hypothesis.

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	Hard

Question

In a heated debate in biogeography, the field is divided between dispersalists and vicariancists. _____ there are those who argue that dispersal is the most crucial determining factor in a species’ distribution, and those who insist that vicariance (separation due to geographic barriers) is. Biogeographer Isabel Sanmartín counts herself among neither.

Which choice completes the text with the most logical transition?

Answer

- A. Furthermore,
- B. By contrast,
- C. Similarly,
- D. That is,

Correct Answer: D

Rationale

Choice D is the best answer. “That is” logically signals that this sentence clarifies the terms of the scientific debate introduced in the previous sentence by explaining the difference between dispersalists and vicariancists.

Choice A is incorrect because “furthermore” illogically signals that the information in this sentence is merely additional to (and separate from) the information in the previous sentence about the scientific debate. Instead, the information about dispersalists and vicariancists clarifies the terms of that debate. Choice B is incorrect because “by contrast” illogically signals that the information in this sentence contrasts with the information in the previous sentence about the scientific debate. Instead, the information about dispersalists and vicariancists clarifies the terms of that debate. Choice C is incorrect because “similarly” illogically signals that the information in this sentence is merely similar to the information in the previous sentence about the scientific debate. Instead, the information about dispersalists and vicariancists clarifies the terms of that debate.

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	Medium

Question

Scientists were able to isolate a relatively pure sample of selenium in 1817, the same year they first discovered the element’s existence. _____ the isolation process took longer for molybdenum, which was isolated in its pure form three years after scientists first discovered it.

Which choice completes the text with the most logical transition?

Answer

- A. By contrast,
- B. Thus,
- C. Similarly,
- D. For instance,

Correct Answer: A

Rationale

Choice A is the best answer. "By contrast" logically signals that the information in this sentence—that isolating molybdenum was a relatively long process—contrasts with the previous information that isolating selenium was a short process.

Choice B is incorrect because "thus" illogically signals that the information in this sentence is a result of the previous information about selenium’s short isolation process. Instead, the sentence presents contrasting information about molybdenum’s longer isolation process. Choice C is incorrect because "similarly" illogically signals that the information in this sentence is similar to the previous information about selenium’s short isolation process. Instead, the sentence presents contrasting information about molybdenum’s longer isolation process. Choice D is incorrect because "for instance" illogically signals that the information in this sentence exemplifies the previous information about selenium’s short isolation process. Instead, the sentence presents contrasting information about molybdenum’s longer isolation process.

Question ID: a40c7aa3

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	Medium

Question

Most of the planets that have been discovered outside our solar system orbit G-type stars, like our Sun. In 2014, _____ researchers identified a planet orbiting KELT-9, a B-type star more than twice as massive and nearly twice as hot as the Sun. Called KELT-9b, it is one of the hottest planets ever discovered.

Which choice completes the text with the most logical transition?

Answer

- A. likewise,
- B. however,
- C. therefore,
- D. for example,

Correct Answer: B

Rationale

Choice B is the best answer. The word “however” logically signals that the information in this sentence about the planet KELT-9b—that it orbits a B-type star—contrasts with the previous information about planets discovered outside our solar system. Most of these planets orbit G-type stars, not B-type stars.

Choice A is incorrect because “likewise” illogically signals that the information about the planet KELT-9b is similar to the previous information about most planets outside our solar system. Instead, it contrasts with that information. Choice C is incorrect because “therefore” illogically signals that the information about the planet KELT-9b is a result of the previous information about most planets outside our solar system. Instead, it contrasts with that information. Choice D is incorrect because “for example” illogically signals that the information about the planet KELT-9b is an example of the previous information about most planets outside our solar system. Instead, it contrasts with that information.

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	Easy

Question

In 1815, while in exile in Jamaica, Venezuelan revolutionary Simón Bolívar penned a letter praising England’s republican government and expressing hope that Latin American nations seeking independence from Spain might achieve something similar. The letter was addressed to a local merchant, Henry Cullen; _____ though, Bolívar’s goal was to persuade political leaders from England and Europe to support his cause.

Which choice completes the text with the most logical transition?

Answer

- A. additionally,
- B. ultimately,
- C. accordingly,
- D. consequently,

Correct Answer: B

Rationale

Choice B is the best answer. “Ultimately” means “in the long run” or “at the highest level.” Although Bolívar wrote to a local merchant, his ultimate goal was to send a message to political leaders in Europe. Therefore, “ultimately” fits perfectly in this context.

Choice A is incorrect. This choice uses a transition that indicates the addition of an agreeing idea. However, the second part of the sentence actually disagrees with the first part. Bolívar addressed the letter to Cullen, but he was really sending a message to someone else. Notice how the contrast word “though” also acts as a transition between these ideas. Choice C is incorrect. This choice uses a cause-and-effect transition. Bolívar’s writing of the letter to Cullen would not cause him to have a goal of persuading European powers to support him. Choice D is incorrect. This choice uses a cause-and-effect transition. Bolívar’s writing of the letter to Cullen would not cause him to have a goal of persuading European powers to support him.

Question ID: 8a1ad52b

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	Medium

Question

A research team led by Gal Badihi has discovered that chimpanzees communicate through exchanges of gestures occurring at a pace similar to that of human conversations. _____ chimpanzee gesture exchanges have short pauses of about 120 milliseconds between communications, comparable to the 200-millisecond average pause between turns in human speech.

Which choice completes the text with the most logical transition?

Answer

- A. As a result,
- B. Specifically,
- C. By contrast,
- D. Nevertheless,

Correct Answer: B

Rationale

Choice B is the best answer. “Specifically” logically signals that the information in this sentence—that pauses between chimpanzee gestures average about 120 milliseconds, comparable to the 200-millisecond average pause in human speech—provides specific, precise details elaborating on the previous sentence’s claim about the pace of chimpanzee communication being similar to that of human conversations.

Choice A is incorrect because “as a result” illogically signals that this sentence presents a result or consequence of the claim about chimpanzee communication described in the previous sentence. Instead, the sentence provides specific details elaborating on that claim. Choice C is incorrect because “by contrast” illogically signals that the information about chimpanzee gesture exchanges in this sentence contrasts with the previous sentence’s claim about the pace of chimpanzee communication being similar to that of human conversations. Instead, the sentence provides specific details elaborating on that claim. Choice D is incorrect because “nevertheless” illogically signals that the information about chimpanzee gesture exchanges in this sentence is true despite the previous claim about the pace of chimpanzee communication. Instead, the sentence provides specific details elaborating on that claim.

Question ID: af89fa02

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	Medium

Question

The Babylonian king Hammurabi achieved much during his forty-year reign. He conquered all of Mesopotamia and built Babylon into one of the most powerful cities of the ancient world. Today, _____ he is mainly remembered for a code of laws inscribed on a seven-foot-tall block of stone: the Code of Hammurabi.

Which choice completes the text with the most logical transition?

Answer

- A. therefore,
- B. likewise,
- C. however,
- D. for instance,

Correct Answer: C

Rationale

Choice C is the best answer. “However” logically signals that the information in this sentence—that Hammurabi is mainly remembered for just a single achievement, the Code of Hammurabi—is contrary to what might be assumed from the previous information about Hammurabi’s many achievements.

Choice A is incorrect because “therefore” illogically signals that the information in this sentence is a result of the previous information about Hammurabi’s many achievements. Instead, this sentence makes a point that is contrary to what might be assumed from the previous information. Choice B is incorrect because “likewise” illogically signals that the information in this sentence is similar to the previous information about Hammurabi’s many achievements. Instead, this sentence makes a point that is contrary to what might be assumed from the previous information. Choice D is incorrect because “for instance” illogically signals that this sentence exemplifies the previous information about Hammurabi’s many achievements. Instead, this sentence makes a point that is contrary to what might be assumed from the previous information.

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	Medium

Question

The Inca of South America used intricately knotted string devices called quipus to record countable information, like population data and payments. _____ they may have used quipus to record more complex information, like stories and myths, according to researchers.

Which choice completes the text with the most logical transition?

Answer

- A. As a result,
- B. In other words,
- C. In addition,
- D. For example,

Correct Answer: C

Rationale

Choice C is the best answer. "In addition" logically signals that the claim in this sentence—that the Inca of South America may have used quipus to record more complex information—is an additional point related to the previous statement about the Inca using quipus to record countable information.

Choice A is incorrect because "as a result" illogically signals that the claim in the sentence is a consequence or result of the previous statement about the Inca using quipus to record countable information. Instead, the possibility that the Inca used quipus to record more complex information is an additional point about how the quipus were used. Choice B is incorrect because "in other words" illogically signals that the claim in the sentence is merely a paraphrase or restatement of the previous statement about the Inca using quipus to record countable information. Instead, the possibility that the Inca used quipus to record more complex information is an additional point about how the quipus were used. Choice D is incorrect because "for example" illogically signals that the claim in the sentence exemplifies the previous statement about the Inca using quipus to record countable information. Instead, the possibility that the Inca used quipus to record more complex information is an additional point about how the quipus were used.

Question ID: 601b9d18

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	Medium

Question

Some members of the US Supreme Court have resisted calls to televise the court’s oral arguments, concerned that the participants would be tempted to perform for the cameras (and thus lower the quality of the discourse). _____ the justices worry that most viewers would not even watch the full deliberations, only short clips that could be misinterpreted and mischaracterized.

Which choice completes the text with the most logical transition?

Answer

- A. However,
- B. Additionally,
- C. In comparison,
- D. For example,

Correct Answer: B

Rationale

Choice B is the best answer. “Additionally” logically signals that the claim in this sentence—that some Supreme Court justices worry that viewers (of televised court arguments) would watch only short, misleading clips—adds to the information in the previous sentence. Specifically, the previous sentence indicates one concern raised by those opposed to televising the court’s oral arguments, and the claim that follows indicates a second, additional concern.

Choice A is incorrect because “however” illogically signals that the claim in this sentence contrasts with the information in the previous sentence. Instead, the claim adds to the information, indicating a second, additional concern that some Supreme Court justices have about televising the court’s arguments. Choice C is incorrect because “in comparison” illogically signals that the claim in this sentence is being compared to the information in the previous sentence. Instead, the claim adds to the information, indicating a second, additional concern that some Supreme Court justices have about televising the court’s arguments. Choice D is incorrect because “for example” illogically signals that the claim in this sentence exemplifies the information in the previous sentence. Instead, the claim adds to the information, indicating a second, additional concern that some Supreme Court justices have about televising the court’s arguments.

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	Medium

Question

In the 1880s, inventor Lewis Latimer improved upon Thomas Edison’s design for the electric light bulb. _____ Latimer made the light bulb more durable by placing cardboard around its carbon filament. With this innovation, Latimer became the first Black inventor to contribute to the electrification of the world.

Which choice completes the text with the most logical transition?

Answer

- A. Soon,
- B. Regardless,
- C. However,
- D. Specifically,

Correct Answer: D

Rationale

Choice D is the best answer. "Specifically" logically signals that the information in this sentence—Latimer making the light bulb more durable—provides a specific detail elaborating on the more general claim in the previous sentence that Latimer improved the light bulb.

Choice A is incorrect because "soon" illogically signals that the information in this sentence occurred shortly after Latimer improved the light bulb. Instead, Latimer making the bulb more durable was the specific improvement. Choice B is incorrect because "regardless" illogically signals that the information in this sentence is true despite the previous claim about Latimer. Instead, the information about Latimer making the bulb more durable provides a specific detail elaborating on that claim. Choice C is incorrect because "however" illogically signals that the information in this sentence contrasts with the previous claim about Latimer. Instead, the information about Latimer making the bulb more durable provides a specific detail elaborating on that claim.

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	Medium

Question

Award-winning travel writer Linda Watanabe McFerrin considers the background research she conducts on destinations featured in her travel books to be its own reward. _____ McFerrin admits to finding the research phase of her work just as fascinating and engaging as exploring a location in person.

Which choice completes the text with the most logical transition?

Answer

- A. By contrast,
- B. Likewise,
- C. Besides,
- D. In fact,

Correct Answer: D

Rationale

Choice D is the best answer. “In fact” logically signals that the information in this sentence—that McFerrin finds the research phase of her work to be just as fascinating as travel—emphasizes and elaborates on the previous sentence’s point that McFerrin regards background research as a rewarding activity.

Choice A is incorrect because “by contrast” illogically signals that the information in this sentence contrasts with the previous sentence’s point about McFerrin’s attitude toward background research. Instead, it emphasizes and elaborates on that point. Choice B is incorrect because “likewise” illogically signals that this sentence merely adds a second, similar point to the previous sentence’s point about McFerrin’s attitude toward background research. Instead, it emphasizes and elaborates on that point. Choice C is incorrect because “besides” illogically signals that this sentence provides a separate point in addition to, or apart from, the previous sentence’s point about McFerrin’s attitude toward background research. Instead, it emphasizes and elaborates on that point.

Question ID: a819d8b6

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	Medium

Question

In 1873, Spanish scientist Santiago Ramón y Cajal observed that brain fibers have distinct boundaries with clear end points, a finding that went against earlier assumptions about the brain. _____ scientists had assumed that the brain was a continuous web of fused fibers, not a vast network of distinct, individual cells.

Which choice completes the text with the most logical transition?

Answer

- A. However,
- B. Previously,
- C. As a result,
- D. Likewise,

Correct Answer: B

Rationale

Choice B is the best answer. “Previously” logically signals that the fused fiber theory came before Ramón y Cajal’s discovery.

Choice A is incorrect. “However” illogically signals that the fused fiber theory in this sentence contrasts with the information in the previous sentence. While this theory does contrast with Ramón y Cajal’s discovery, the previous sentence concludes by stating that his discovery went against prior assumptions about the brain. The fact that the fused fiber theory was one of those earlier assumptions makes “however” an illogical choice. Choice C is incorrect because “as a result” illogically signals that the fused fiber theory in this sentence was a result of the discovery in the previous sentence. Instead, the fused fiber theory came before Ramón y Cajal’s discovery. Choice D is incorrect because “likewise” illogically signals that the fused fiber theory in this sentence was similar to the discovery in the previous sentence. Instead, the fused fiber theory, which came before Ramón y Cajal’s discovery, was very different from it.

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	Hard

Question

In hindsight, given the ideas about the natural world circulating among British scientists in the 1800s, the theory of natural selection was an obvious next step. It may not have been a coincidence, _____ that Charles Darwin and Alfred Wallace arrived at the concept independently. Indeed, contrary to the popular myth of the lone genius, theirs is not the first paradigm-shifting theory to have emerged from multiple scholars working in parallel.

Which choice completes the text with the most logical transition?

Answer

- A. however,
- B. then,
- C. moreover,
- D. for example,

Correct Answer: B

Rationale

Choice B is the best answer. "Then" signals that this sentence’s claim about Darwin and Wallace follows logically from the previous information. In other words, both scientists independently arriving at the theory of natural selection was, arguably, an expected outcome of the circumstances mentioned in the previous sentence.

Choice A is incorrect because "however" illogically signals that the claim in this sentence contrasts with the previous information about the ideas circulating among British scientists in the 1800s. Instead, this claim follows logically from that information. Choice C is incorrect because "moreover" illogically signals that the claim in this sentence merely adds to the previous information about the ideas circulating among British scientists in the 1800s. Instead, this claim follows logically from that information. Choice D is incorrect because "for example" illogically signals that this sentence provides an example supporting the previous information about the ideas circulating among British scientists in the 1800s. Instead, it presents a claim that follows logically from that information.

Question ID: 326017ce

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	Medium

Question

For years, biologists have experimented with using grime-eating bacteria rather than harsh chemicals to clean artworks, and results have been impressive overall. _____ these bacterial strains—which can metabolize centuries’ worth of oil, glue, dirt, and other surface impurities without creating harmful byproducts—have proven more effective than traditional chemical cleaning methods.

Which choice completes the text with the most logical transition?

Answer

- A. However,
- B. In many cases,
- C. As a result,
- D. Additionally,

Correct Answer: B

Rationale

Choice B is the best answer. The first sentence makes the claim that using grime-eating bacteria has led to “impressive results.” This sentence supports that claim by describing the specific findings of the biologists’ experimentation. The transition “in many cases” fits the context perfectly.

Choice A is incorrect. This choice uses a disagreement transition. But this sentence actually agrees with the previous sentence. Both claim that grime-eating bacteria are better at cleaning artworks than chemicals. Choice C is incorrect. This choice uses a cause-and-effect transition, which doesn’t make sense in context. The fact that the results of the experimentation have been impressive overall doesn’t cause the bacteria to have proven more effective. Choice D is incorrect. This choice uses a transition that indicates the addition of a new idea. But this sentence doesn’t introduce a new idea. Instead, it elaborates on the same idea laid out in the previous sentence by describing the “impressive results” in more detail.

Question ID: c78620ba

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	Easy

Question

In 1968, US Congressman John Conyers introduced a bill to establish a national holiday in honor of Dr. Martin Luther King Jr. The bill didn’t make it to a vote, but Conyers was determined. He teamed up with Shirley Chisholm, the first Black woman to be elected to Congress, and they resubmitted the bill every session for the next fifteen years. _____ in 1983, the bill passed.

Which choice completes the text with the most logical transition?

Answer

- A. Instead,
- B. Likewise,
- C. Finally,
- D. Additionally,

Correct Answer: C

Rationale

Choice C is the best answer. “Finally” logically signals that the bill passing—following many attempts between 1968 and 1983—is the final, concluding event in the sequence described in the previous sentences.

Choice A is incorrect because “instead” illogically signals that the bill passing is an alternative to one of the events described in the previous sentences. Instead, it is the final event in the sequence. Choice B is incorrect because “likewise” illogically signals that the bill passing is similar to one of the events described in the previous sentences. Instead, it is the final event in the sequence. Choice D is incorrect because “additionally” illogically signals that the bill passing is merely another event described along with the events of the previous sentences. Instead, it is the final, concluding event in the sequence.

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	Easy

Question

It has long been thought that humans first crossed a land bridge into the Americas approximately 13,000 years ago. _____ based on radiocarbon dating of samples uncovered in Mexico, a research team recently suggested that humans may have arrived more than 30,000 years ago—much earlier than previously thought.

Which choice completes the text with the most logical transition?

Answer

- A. As a result,
- B. Similarly,
- C. However,
- D. In conclusion,

Correct Answer: C

Rationale

Choice C is the best answer. “However” logically signals that the theory discussed in this sentence—that humans may have arrived in the Americas over 30,000 years ago—contrasts with the previously discussed theory that humans arrived around 13,000 years ago.

Choice A is incorrect because “as a result” illogically signals that the theory in this sentence is the result of the theory discussed in the previous sentence. Instead, this theory contrasts with the previous one. Choice B is incorrect because “similarly” illogically signals that the theory in this sentence is similar to the theory discussed in the previous sentence. Instead, this theory contrasts with the previous one. Choice D is incorrect because “in conclusion” illogically signals that the theory in this sentence concludes or summarizes the discussion of the previous theory. Instead, this theory contrasts with the previous one.

Question

Brain imaging research led by neuroscientist Dwaynica Greaves found that actors showed suppressed responses in the left anterior prefrontal cortex (the portion of the brain associated with self-awareness) when their names were called during performances; _____ the actors’ responses were normal in nonacting contexts. These findings suggest that when embodying characters, performers may temporarily set aside their personal identities.

Which choice completes the text with the most logical transition?

Answer

- A. specifically,
- B. conversely,
- C. likewise,
- D. thus,

Correct Answer: B

Rationale

Choice B is the best answer. “Conversely” logically signals that the information in this sentence—that the actors’ responses were normal in nonacting contexts—presents the opposite of the previous finding that actors showed suppressed responses when their names were called during performances.

Choice A is incorrect because “specifically” illogically signals that the information about the actors’ normal responses in nonacting contexts provides specific details elaborating on the previous finding of suppressed responses during performances. Instead, the sentence presents the responses as opposites. Choice C is incorrect because “likewise” illogically signals that the actors’ normal responses in nonacting contexts are similar to the suppressed responses observed during performances. Instead, the sentence presents the responses as opposites. Choice D is incorrect because “thus” illogically signals that the actors’ normal responses in nonacting contexts are a result or consequence of the suppressed responses observed during performances. Instead, the sentence presents the responses as opposites.

Question

In 1845, the United States District Court for the state of Iowa was established. Initially, the court’s jurisdiction was a single district that encompassed the entire state, but as Iowa’s population grew, this single district began to struggle to serve the needs of everyone in the state. _____ the court’s jurisdiction was subdivided into two districts, each with its own district court.

Which choice completes the text with the most logical transition?

Answer

- A. Nevertheless,
- B. Ultimately,
- C. Additionally,
- D. For example,

Correct Answer: B

Rationale

Choice B is the best answer. “Ultimately” logically signals that the information in this sentence—that the court’s jurisdiction was subdivided into two districts—was the eventual outcome or resolution of the previously described struggle of the single district to serve the needs of everyone in the state.

Choice A is incorrect because “nevertheless” illogically signals that the information in the sentence is true despite the single district’s struggle to serve the state’s needs. Instead, the sentence describes the eventual resolution of that struggle. Choice C is incorrect because “additionally” illogically signals that the information in the sentence is merely an additional fact related to the single district’s struggle. Instead, the sentence describes the eventual resolution of that struggle. Choice D is incorrect because “for example” illogically signals that the information in the sentence provides a specific example of the single district’s struggle to serve the state’s needs. Instead, the sentence describes the eventual resolution of that struggle.

Question

Long thought to be sessile (immobile), adult *Chelonibia testudinaria*, barnacles that adhere to sea turtle shells, have been observed to shift slightly in position over time—a phenomenon that has been attributed to the barnacles’ passive displacement by water currents. _____ a research team found that adult *C. testudinaria* moved toward the heads of their sea turtle hosts and thus against the prevailing water flow, behavior consistent with self-initiated locomotion.

Which choice completes the text with the most logical transition?

Answer

- A. Contrary to this phenomenon,
- B. Undermining this explanation,
- C. Drawing a similar conclusion,
- D. Confirming this hypothesis,

Correct Answer: B

Rationale

Choice B is the best answer. “Undermining this explanation” logically signals that the information in this sentence—that adult *Chelonibia testudinaria* showed behavior consistent with self-initiated locomotion—undermines or weakens the previous explanation that barnacle movement was a result of passive displacement by water currents.

Choice A is incorrect because “contrary to this phenomenon” illogically signals that the information in this sentence about barnacles exhibiting behavior consistent with self-initiated locomotion opposes the previous information about barnacles shifting slightly in position over time. Instead, the sentence undermines or weakens the previous claim about passive displacement. That is, the sentence doesn’t oppose the fact that the barnacles shifted position: it challenges the previous sentence’s explanation for the movement. Choice C is incorrect because “drawing a similar conclusion” illogically signals that the information in this sentence about barnacles exhibiting behavior consistent with self-initiated locomotion is similar to the previous conclusion that barnacle movement is the result of passive displacement. Instead, the sentence undermines or weakens the previous sentence’s explanation for how the barnacles moved. Choice D is incorrect because “confirming this hypothesis” illogically signals that the information in this sentence about barnacles exhibiting behavior consistent with self-initiated locomotion confirms the hypothesis in the previous sentence that the barnacle movement was the result of passive displacement. Instead, the sentence undermines or weakens the previous sentence’s explanation for how the barnacles moved.

Question

Researchers believe that pieces of hull found off Oregon’s coast are from a Spanish cargo ship that was lost in 1697. Stories passed down among the area’s Confederated Tribes of Siletz Indians support this belief. _____ Siletz stories describe how blocks of beeswax, an item the ship had been carrying, began washing ashore after the ship was lost.

Which choice completes the text with the most logical transition?

Answer

- A. For this reason,
- B. For example,
- C. However,
- D. Likewise,

Correct Answer: B

Rationale

Choice B is the best answer. “For example” logically signals that the Siletz beeswax stories mentioned in this sentence are examples consistent with the previous claim that Siletz stories support the shipwreck theory.

Choice A is incorrect because “for this reason” illogically signals that the Siletz stories about the beeswax were caused by the previous claim that Siletz stories support the shipwreck theory. Instead, the beeswax stories are examples consistent with the claim. Choice C is incorrect because “however” illogically signals that the Siletz stories about the beeswax contrast with the previous claim that Siletz stories support the shipwreck theory. Instead, the beeswax stories are examples consistent with the claim. Choice D is incorrect because “likewise” illogically signals that the Siletz stories about the beeswax are similar to the previous claim that Siletz stories support the shipwreck theory. Instead, the beeswax stories are examples consistent with the claim.

Question

Alexander Lawrence Posey (1873–1908) varied his focus and tone depending on the genre in which he was writing. In his poetry, he used heartfelt language to evoke the beauty and peacefulness of his natural surroundings; in his journalism, _____ he employed humor and satire to comment on political issues affecting his Muskogee Creek community.

Which choice completes the text with the most logical transition?

Answer

- A. that is,
- B. granted,
- C. similarly,
- D. by contrast,

Correct Answer: D

Rationale

Choice D is the best answer. This sentence compares two examples of Posey’s tone: the “heartfelt language” he used in his poetry versus the “humor and satire” he used in his journalism. We know from these descriptions and from the claim in the previous sentence that the two tones are very different from each other. So the transition “by contrast” fits the context perfectly.

Choice A is incorrect. This choice uses a transition that indicates a restatement of the same idea in other words. But the text isn’t restating the first example here. Instead, it’s offering a second, totally different example. Choice B is incorrect. This choice uses a transition that means “admittedly.” But the text isn’t admitting or conceding anything here. Instead, these two examples work together to support the claim made in the first sentence. Choice C is incorrect. This choice uses a transition that indicates the addition of an agreeing idea. But these two examples are intentionally very different from each other, so “similarly” doesn’t make sense here.

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	Easy

Question

Geoscientists have long considered Hawaii’s Mauna Loa volcano to be Earth’s largest shield volcano by volume, measuring approximately 74,000 cubic kilometers. _____ according to a 2020 study by local geoscientist Michael Garcia, Hawaii’s Pūhāhonu shield volcano is significantly larger, boasting a volume of about 148,000 cubic kilometers.

Which choice completes the text with the most logical transition?

Answer

- A. Secondly,
- B. Consequently,
- C. Moreover,
- D. However,

Correct Answer: D

Rationale

Choice D is the best answer. “However” logically signals that this sentence, which indicates that the Pūhāhonu volcano may be larger than the Mauna Loa volcano, offers a contrast to or refutation of the previous assumption that Mauna Loa is the largest shield volcano.

Choice A is incorrect because “secondly” illogically signals that this sentence merely offers an additional or secondary point concerning the previous assumption that Mauna Loa is the largest shield volcano. Instead, the sentence offers a contrast to or refutation of that assumption. Choice B is incorrect because “consequently” illogically signals that this sentence offers a result or consequence of the previous assumption that Mauna Loa is the largest shield volcano. Instead, the sentence offers a contrast to or refutation of that assumption. Choice C is incorrect because “moreover” illogically signals that this sentence merely adds to the previous assumption that Mauna Loa is the largest shield volcano. Instead, the sentence offers a contrast to or refutation of that assumption.

Question

A turtle shell appears external to the animal, protecting its body like armor. _____ the shell is often incorrectly assumed to be an exoskeleton, a rigid outer casing like that of a crustacean or an insect, when in fact it is an endoskeleton, a part of the turtle’s internal bone structure, more akin to a spine or a pair of ribs.

Which choice completes the text with the most logical transition?

Answer

- A. That being said,
- B. However,
- C. For instance,
- D. Hence,

Correct Answer: D

Rationale

Choice D is the best answer. "Hence" logically signals that the information in this sentence about turtle shells—that people incorrectly assume they are exoskeletons—is a consequence of the shells appearing external to the animal.

Choice A is incorrect because "that being said" illogically signals that this sentence qualifies or contrasts with the previous information about turtle shells appearing external to the animal. Instead, it presents a consequence of that information. Choice B is incorrect because "however" illogically signals that this sentence contrasts with the previous information about turtle shells appearing external to the animal. Instead, it presents a consequence of that information. Choice C is incorrect because "for instance" illogically signals that this sentence provides an example supporting the previous information about turtle shells appearing external to the animal. Instead, it presents a consequence of that information.

SAT	Reading and Writing	Expression of Ideas	Transitions	Easy

Question

Okot p’Bitek’s poem *Song of Lawino* (1966) explores postcolonial Ugandan life through the eyes of a woman living in a rural village. With its vibrant imagery, biting satiric tone, and dexterous use of traditional Acholi song and phraseology, the poem inspired a generation of East African writers. _____ those who adopted its style are often referred to as Okot School poets.

Which choice completes the text with the most logical transition?

Answer

- A. Nevertheless,
- B. Fittingly,
- C. By comparison,
- D. Instead,

Correct Answer: B

Rationale

Choice B is the best answer. “Fittingly” is a transition that means “appropriately” or “suitably,” and it is appropriate that writers who adopted their style from Okot p’Bitek would be known as the Okot School poets.

Choice A is incorrect. This choice uses a disagreement transition. But this sentence is not disagreeing with anything—rather, it’s discussing how it makes sense for those writers who adopted Okot’s style to be known as the Okot School poets. Choice C is incorrect. This choice uses a transition that compares two ideas. But this sentence is not comparing the Okot School poets and their style to Okot’s style. Choice D is incorrect. This choice uses a disagreement transition. But this sentence is not disagreeing with anything—rather, it’s discussing how it makes sense for those writers who adopted Okot’s style to be known as the Okot School poets.

Question

Before the 1847 introduction of the US postage stamp, the cost of postage was usually paid by the recipient of a letter rather than the sender, and recipients were not always able or willing to pay promptly. _____ collecting this fee could be slow and arduous, and heaps of unpaid-for, undeliverable mail piled up in post offices.

Which choice completes the text with the most logical transition?

Answer

- A. Regardless,
- B. On the contrary,
- C. Consequently,
- D. For example,

Correct Answer: C

Rationale

Choice C is the best answer. “Consequently” logically signals that the postal problems described in this sentence (slow fee collection, heaps of undeliverable mail) were a consequence of the fee system described in the previous sentence.

Choice A is incorrect because “regardless” illogically signals that the postal problems described in this sentence occurred despite the fee system described in the previous sentence. Instead, they were a consequence of that system. Choice B is incorrect because “on the contrary” illogically signals that the postal problems described in this sentence contrast with the fee system described in the previous sentence. Instead, they were a consequence of that system. Choice D is incorrect because “for example” illogically signals that the postal problems described in this sentence are an example of the fee system described in the previous sentence. Instead, they were a consequence of that system.
